## Bing Clockwork Battleship - restoration by Simon Greenwood

- Unsolder the rear deck to allow access to underneath.
- Put a plate behind the worst of the dents (on the inside of the hull) and affect an invisible repair.
- Remove the dents in the plate work, fill with lead to smooth out.
- Repair boardwalk/foredeck plate work
- Repair steering mechanism and firing mechanism
- Service clockwork motor, clean and re-oil.
- Re-solder rear deck

- Add beading around top of 2<sup>nd</sup> chimney to match the original 1<sup>st</sup> chimney.
- Replace front and rear masts with those of correct size, complete with rigging eyes.
- Taper masts and fit cross-piece to main mast.
- Replace rigging, fabricating new rigging hooks
- Strip of paintwork, re-paint, re-decorate and complete rigging, in Bing original style.
- Manufacture a transfer, to replace the worn lithograph, on the Trademark plate
